Application for Approval of 2011 Heavy-Duty Diesel Engine Models to Federal Emission Standards

Dear Mr. Orehowsky

Please find enclosed the 2011 application for engine family BNVXH07570GD. On behalf of Navistar, Inc., I hereby certify that the test engines, as described in these applications for certification, have been tested in accordance with the applicable test procedures, utilizing the fuels and equipment required under subparts D, I, and N of 40 CFR 86, and that, on the basis of such tests, the engines conform to the requirements of 40 CFR. There are no adjustable parameters included in this application. I further certify that all engines in this engine family are in material respects as described in the Application for Certification and comply with all requirements of 40 CFR Part 86 and the Clean Air Act.

As required by the regulations and US EPA's guidance on these matters, a detailed description and justification of Auxiliary Emission Control Devices will be provided for the application. Additionally, Navistar, Inc. certifies that these engines comply with all requirements of applicable regulations and guidance documents, based on information in its possession at the time of certification.

A certification fee statement for family BNVXH07570GD is attached.

A signed certificate, which can be directed by email to me, is needed by May 14, 2011. If you have any questions concerning this application, please direct them to me at the earliest possible date so they may be addressed within the timeframe required.

Sincerely yours,

EPA (b) (6) Personal Info
